

## INFRASTRUCTURE

### Survey Lab

This lab has facilities like Total station, Vernier Theodolite, Hand held GPS, Dumpy level, prismatic compass, leveling staff, Ranging rod and cross staff,

### Computer Lab

The Lab has facilities like Computer Systems, Printers, AutoCAD, Revit Architecture, GIS, Stadd pro software's.

### Material Testing Lab

This lab has facilities like torsion testing machine, flexural testing machine, Rockwell-cum Brinell hardness testing machine, compression testing machine, spring testing apparatus, vicat's apparatus

## Hydraulics Lab

The Lab focuses on centrifugal pump, Reciprocating pump, notch apparatus, Bernoulli's theorem apparatus, venturimeter /orifice meter apparatus, pipe friction apparatus, pelton wheel.

## Construction practice Lab

This lab has facilities like slump cone apparatus, compaction factor, vee bee consistometer, Blaine permeability apparatus, vicat's apparatus, apparatus to find flakiness index.
