

INFRASTRUCTURE

Electrical Machines Lab

This lab has facilities like Generators, Induction motors power supply, ammeter, voltmeter, wattmeter and Rectifier.

Microcontroller Lab

This lab has facilities like Micro Controller Kits, Advanced Micro controller Kits and Interfacing kits,

Electronics Lab

The Lab focuses on Electronic Devices and Circuits, Analog and Digital Experiments and Power Electronics experiments. The Lab has power supplies of various ranges, function generators, Cathode Ray Oscilloscope's and Trainer kits for Power electronics fields.

Workshop Lab

This lab has facilities like Safety Equipments, Domestic appliances like Mixer grinder, Wet Grinder, Ceiling fan etc,

Computer Lab

This lab has facilities like computer, printer, multi sim package, CAED & Matlab software
